SUMMARY

Skilled Software Development Engineer with hands-on experience in designing and developing cross-platform mobile applications using Flutter and Dart. Proficient in building intuitive and responsive UIs, integrating RESTful APIs, implementing BLoC and Riverpod for scalable state management, and delivering robust features such as payments, push notifications, and real-time chat. Experienced in widget and integration testing to ensure reliability and quality. Dedicated to applying Flutter expertise, clean architecture principles, and agile practices to deliver high-performance, user-centric mobile applications.

WORK EXPERIENCE

Quantana Pvt Ltd — **March 2023 - May 2025**
Software Development Engineer I — Hyderabad

- Built and launched multiple cross-platform hybrid applications using Flutter and Dart for Android, iOS, and desktop (Windows).
- Used effective state management techniques and implemented a clean code architecture to simplify the codebase and optimize app performance, ensuring smooth operation across all devices.
- Managed code using Git, actively participated in regular team meetings, contributed to code reviews and documentation, and collaborated closely with the team to ensure timely delivery of project modules while maintaining clear and consistent communication.

PROJECTS

ISB Online Academic Solutions – LMS for Android, iOS & Desktop (Windows)

Flutter, Dart | App Link : ISBOnline Academic Solutions

- Built and deployed a cross-platform LMS using **Flutter & Dart** for **Android, iOS**, and **desktop Windows**, with distinct flows for students and teachers.
- Implemented **BLoC** state management within a Clean Architecture (MVVM) pattern, reducing code complexity and ensuring smooth performance on Android & iOS. Integrated RESTful APIs for dynamic content, real-time tracking, and performance analytics, while delivering responsive UI/UX across all devices.
- Integrated Flutter plugins for file access, push notifications, and desktop support, and collaborated with backend teams for seamless data integration.
- Achieved **75%** test coverage by writing comprehensive automated tests, improving code reliability and reducing production bugs.
- Followed best practices in version control using Git, participated in regular team syncs, and contributed to code reviews and documentation efforts for smoother handovers and onboarding.

Pet Sitter Application - Andriod, iOS

Flutter, Dart, Firebase, Stripe

- Independently developed and delivered a cross-platform MVP application, managing distinct user and service provider flows while directly interacting with the client for requirements and updates.
- Implemented **real-time chat** with **Firebase Cloud Messaging** for notifications, enabling seamless communication and booking alerts.
- Integrated **Stripe Payment Gateway** for secure transactions and built a responsive UI with Flutter, handling the entire development process.

TECHNICAL SKILLS

Programming Languages

Python, Dart, Java, JavaScript

Web Developement

HTML, CSS, Responsive UI Design

Testing (Flutter)

Widget Testing, Integration Testing

Frameworks and Libraries

Flutter, ReactJs, NextJs, Redux, Bootstrap, Tailwind CSS

Backend & Databases

NodeJs, Firebase, Supabase, MongoDB

Tools & Platforms

Git, Postman, Visual Studio Code, Android Studio, Firebase Console

EDUCATION

International Institute of Information Technology Hyderabad — **August 2021 - July 2023**
Masters of Science, Information Technology — Masters
8.0 CGPA

Bachelor of Technology — **2016 - 2020**
Electronics and Communication Engineering — Scient Institute of Technology, Hyderabad
CGPA 6.67
